

**SoonerCare
Activities Survey:**

Many activities can be hazardous to your eyes, and to your glasses. We want to provide glasses that are appropriate for not only your vision but for your activities. Polycarbonate lenses are available at a higher cost, but are many times safer if you are involved in any of these activities. Your insurance carrier will only allow you to have this type of lens if we can demonstrate a definite need. If you do not qualify, you can still have this type of lens by paying for the difference between the material type your insurance allows and polycarbonate.

Do you ever do any of the following activities:

Please make an "X" in any that apply:

- Contact sports
- Yard work, mowing, weedeating, raking, etc.
- Hunting
- Fishing
- Operate Power Tools
- Carpentry or wood working as a hobby
- Other, please specify _____

Patient signature _____ Date _____

Parent or guardian _____ Date _____
